

URMI CHEMICALS

ISOPROPYL CHLOROACETATE

PRODUCT DETAILS

www.urmichemicals.com

PRODUCT OVERVIEW

Isopropyl Chloroacetate is a specialty organic ester widely used as a versatile intermediate in pharmaceutical synthesis, agrochemical manufacturing, and fine chemical processing.

CHEMICAL INFORMATION

- **Chemical Name:** Isopropyl Chloroacetate
- **CAS No.:** 105-48-6
- **Molecular Formula:** C₅H₉ClO₂
- **Molecular Weight:** 136.58 g/mol
- **Appearance:** Clear Colorless Liquid
- **Odour:** Strong, Pungent, Ester-like

APPLICATIONS

- **Pharmaceutical Intermediates:** Key building block for synthesizing active pharmaceutical ingredients (APIs).
- **Organic Synthesis:** Versatile alkylating agent used to build complex fine chemical frameworks.
- **Agrochemicals:** Crucial precursor in manufacturing selective herbicides and crop protection chemicals.

SPECIFICATIONS

PARAMETER	SPECIFICATION
Appreance	Clear Colorless liquid
Purity	98% (min)
Moisture	0.5% (max)

Customised specifications are available on request.

PACKAGING & STORAGE

- Available in ISO containers for Export. Domestic supplies can be in tanker loads or 200 kg Steel Drums
- Store in a cool, dry and well ventilated area.
- Keep away from Moisture and direct sunlight.

SAFETY & HANDLING

- Use protective gloves and eyewear while handling
- Avoid inhalation and direct skin contact
- Ensure proper ventilation in the workplace

ABOUT US

Urmi Chemicals is a trusted manufacturer and exporter of specialty chemicals, delivering high-quality solutions for diverse industrial applications. We serve a wide range of industries including pharmaceuticals, agrochemicals, flavors & fragrances, textiles, and dyes & pigments.

With a strong commitment to innovation, quality, and sustainability, we develop reliable chemical solutions that meet the evolving needs of global markets. Our modern facilities, technical expertise, and customer-focused approach ensure consistent production and on-time delivery worldwide.

WHY CHOOSE URMI CHEMICALS?

- Over 50 years of excellence in chemical manufacturing.
- High-purity material ensuring industry-leading quality.
- Continuous innovation to ensure sustainable operations.
- Global Export capabilities with reliable supply chain solutions.
- Custom packaging & logistics support tailored to client needs.
